- **Primary**
  Pulilan Central School (1991 – 1996)

Trainings

- **Comprehensive Introduction to JAVA Programming (Hands-on)**

  ActiveLearning, Inc.
  2nd Floor Home Studio Building
  63 Connecticut St., Greenhills
  San Juan, Philippines
  March 12-16, 2018

  Knowledge gained:
  Coding JAVA programs using Eclipse IDE
  Different elements, literals, data type and operators in JAVA
  Getting user input through Scanner and JOptionPane
  Different control flow (if, if-else, switch, for, while, do-while)
  Declaring, creating and accessing arrays in JAVA
  Object-Oriented Programming in JAVA
  Accessing Database(MySql)
  Creating various classes and methods to complete various exercises during the training

- **Structured Systems Analysis and Design**

  Mapua Information Technology Center (MITC) Building
  333 Nicanor Garcia Street Corner (Reposo)
  Sen. Gil Puyat Avenue
  Makati City
  October 20 – 30, 2008 and November 4, 2008

- **COBOL CICS/batch training**

Software Laboratories Inc.
August – October 2005

- **On the Job Training**

  (Software Laboratories Inc.)
  RCBC
  ITD – ASD4
  Banktrade Systems
  November 2005 – January 2006

- **On the Job Training**

  Sharp Phils.
  Alabang, Muntinlupa City
  May – June 2004

Technical Background

- **Application Development**

  COBOL CICS/batch
  VSAM
  JCL/VSE
  Visual Basic
  Easytrieve Programming
  SQL

- **Tools**

  Eclipse/NetBeans IDE
  Ultraedit – 32
  Microsoft Visio 2000
  CA – Easytrieve Plus – 6.3
  SPF/PC ver. 1.05
  Bluezone Mainframe Display
